Woman's Club Committee to Interview Candidates on Attitude Toward Municipal Questions to Report at Special Meeting

ALL THE CANDIDATES WERE VISITED TODAY

The special committee of the Atbusinerque Woman's cinb, appointed to call on all candidates for city offices and ascertain their positions or various pending questions in the municipal election, visited all of the candidates today and are now preparing their report, which will be snomitted to the club at a special meeting to be held tomorrow afternoon in the club at 2 o'clock and which all mem-

bers are urged to attend. "We have seen the candidates and are now preparing our report to the club," said Mrs. C. H. Conner, chairman of the committee, this after-noon. "We will make no part of the report public until it is submitted to the meeting of the club tomorrow

TO THE PEOPLE OF ALBUQUERQUE

I have been asked to state where I stand on the "Red Light" issue, the maintenance of which evil on North Third street, the Democratic city candidates appear to have made their issue in this campaign.

I am opposed to the "Red Light" district in Albuquerque; and if elected mayor, will do everything in my power to force its immediate abolishment. Some unimportant revenue is now received by the city from this district. I he-Here any loss of revenue incurred in closing this district can be made up by economical business methods in city management. If it cannot, I believe we would all feel better to go down in our pockets and dig up the money rather than use for municipal purposes money extorted from fallen

The statement that I am a reformer, a blue law cambidate, that I intend to close picture shows and drug stores and cigar stores on Sunday; that I propose to advocate prohibition, or to change our present liquor license system, or the city license system in any way, aside from the revenue from falles women, is not correct and is made with intent to deceive the voters.

D. H. BOATRIGHT.

Republican Candidate for Mayor. Albuquerque, March 30, 1911,

The above statement speaks for itself. It needs no explansition. It cannot be misconstrued.

It is the pledge of D. H. Bostright, an honorable, clean business man, whose word in this city is as good as hid bond, that if you elect him Mayor of Albuqu rque he will do everything in his power to do away with the brothel and close the "Red Light" district in the heart of the business community.

Behind Mr. Bostright stands the pledged word of every man on the Republican ticket.

Contrast this position with that of Mayor Sellers. Two years ago the Mayor was elected upon his solemn pledge to submit the closing of the "Red Light" district to a vote of the people.

He not only violated his pledge; but deliberately used his position as Mayor to keep the "Red Light" open and to render it immune from attack. He not only made it immune, but he issued to the houses of prostitution liquor licenses in direct violation of law.

In this election Mayor Sellers is openly campaigning as the advocate and champion of the "Red Light" district. His violation of his pledge of two years ago and his present attitude drave one-half of the Democratic delegates to leave the convention which nominated him last week.

The Morning Journal, in advocating the re-election of Sellers, deliberately touts him as the man who can be depended upon to keep existing vice in flourishing condition.

Effort is being made to shield open advocacy of vice behind talk of a "little Law" regime. You are asked by Mayor Sellers and the Morning Journal where the money will come from if the "sed Light" is closed. You are told that picture shows are to be closed on Sunday while your taxes will be increased.

You know what Mayor Bellers has done to you on taxes. Your tax receipts tell you that,

Do not be deceived or misled by this blind. The closing of the "Red Light" district will not seriously affect the city's revenue from licenses. It is no part of the platform or planof Mr. Boatright and the Republican candidates and party to disturb the city's present license system; and the talk about blue laws is the purest campaign rot.

The lesue in this election has been put before the people of Albuquerque by Mayer Sellers and his supporters as one of open support and encouragement of vice as against decency and law enforcement. Mr. Boatright and the Republican party stand for decency and law enforcement. That's

There are 29 or 30 women in the "Red Light" district from whom the city is now drawing a revenue of \$10 a mouth each. What do you think of that; you men of Albuquerque? De you want that money? Would you, personally, spend it if it were handed to you, to our clothes for your wife and daughter, or to pay the cook?

Mr. Boatright and the Republican party propose to cut off that revenue and by ordinary business judgment and economy, make up the small portion of the city's revenue which it represents. And if by any chance it cannot be so made up, we propose to go down in our pockets and dig up the difference rather than use the earnings of these women.

Mr. Realright and the Republican party propose to wipe our the cell section in the heart of our business district. through which you do not care to pass and through which your wises and daughters days not pass,

We are not posting here as reformers. We are simply propusing to do what any business man, finding a rotten apot in his business would do-cut it out. We are not proposing any "closed town" or any "blue laws." The city's revenue is not going to suffer. We do not expect to end prosiliution in Albuquerque. But we do propose to end it as one of our prominent and popular institutions, in the center of our shopping district, to which our city government points with pride and from which we draw a revenue. And in this we believe every honest man and woman in Albaquerque is with us.

That's where Mr. Bostright and the Republican party stand on the "Red Light" as an Albuquerque institution

Dean of Washington Diplomatic Corps Said to be Considering Change Offerred by His Government

(By Leased Wire to Evening Herald.) Washington, March 20.—Well defined reports in diplomatic circles today said that Ambassador Jerrerand, who has been the representapast eleven years, and who is the dean of the diplomatic curps here, may be transferred to London.

It is understood that the British post was the only one which the ambassador was willing to accept after his government had expressed desire to advance him to another important post on account of his long service here. While not officially confirmed, the rumor which the diplomals are discussing, came from sources that lent to its being widely
